

Defect Report for Swag Labs, Sauce (E-Commerce) Demo

Reported by:

Conner Humphrey

Date Reported:

03/07/2024

Defect ID: Defect_2

Defect Title:

Problem_User First Name field input is linked to Last Name field input on checkout page

Description:

When logged in with the user Problem_User while checking out typing in the Last name field it is duplicated into the First Name field. For example, if you type "Humphrey" into the last name input box, it will also input "Humphrey" into the first name input box overriding the previous input.

Steps to reproduce:

1. Log into the sauce demo with Username problem_user and Password secret_sauce.
2. Add an item to the user's cart.
3. Click the cart button to navigate to the cart page
4. Click checkout.
5. Input a string into the first name field
6. Input a different string into the last name field

Environment:

Google Chrome Version 126.0.6478.115, running on a Windows 10 Home x64 operating system at <https://www.saucedemo.com/v1/inventory.html>

Severity\Priority:

This is a high priority, high severity defect requiring immediate focus

Evidence:

Evidence showing the defect is attached in the same folder as this defect report
